Accreditation requirements –

“The Astor Home for Children became one of the first agency to achieve accreditation by the Joint Commission in 1974. We believed then, as we do now, that for Astor to be a world class agency, we must set and meet the highest standards. Joint Commission offers us the stringent standards that insure our children and families receive the care, treatment and educational services they deserve.”

Jim McGuirk, Executive Director

Help/support/resources -

“The Standards Interpretation Group (SIG) is the ultimate form of road side assistance (or you could say it is The Joint Commission’s rapid response team). All our agency has to do is pick up the phone or send an email and we get technical assistance on the interpretation of any accreditation requirement.”

Toni Gartner,
Rosecrance Treatment Centers

Surveyors –

“We have made several very positive changes as a result of opportunities identified in our survey results. And the surveyors’ willingness to respond to questions and share “best practices” observed in other accredited facilities enhances the value of the survey process. By sharing information underlying the establishment of National Patient Safety Goals, our surveyor helped us recognize risks and dangers we had not fully appreciated. This gave staff additional motivation to gear up efforts in these areas.”

Andrew L Braun, Executive Director

Surveyors –

“We’ve appreciated the attributes of the surveyors. They are excellent mentors and teachers, rather than critics, and that helps us think things through in a positive manner. It helps us become better where we want to become better. The survey process has been great. Our surveyors have been very helpful. Different surveyors focus on different things, but that’s been helpful to us to have different areas to focus on at different times. They provide the right emphasis to help us improve.”

Fees -

“Joint Commission behavioral health care accreditation has opened doors to insurance reimbursement, State Board of Education reimbursement, Medicaid reimbursement, and it has given us respect within the teen treatment industry. The benefits have been far-reaching and immeasurable.”

Reputation -

“We pride ourselves on quality services so we wanted the community to see that we had The Joint Commission’s Gold Seal of Approval. The hospital in our community has that recognition so people know what it means. Joint Commission accreditation is a known quality indicator.”
