JCI Accreditation Standards for Hospitals 7th Edition, Receives ISQua EEA Accreditation

JCI is pleased to announce that its 7th edition hospital and medical center standards have been awarded accreditation by the International Society for Quality (ISQua). ISQua, known as the accreditor of accreditors, is a global organization responsible for assessing the standards of organizations that set the benchmarks in health care safety and quality. The accreditation is approved from December 2020 to December 2024.

JCI's 7th Edition Hospital Manual Goes Into Effect 1 January 2021!

The effective date of the hospital manual is 1 January 2021, which means all hospital and academic medical center surveys that begin on or after this date will utilize this new set of standards. JCI's standards define the performance expectations, structures and functions that must be in place for a hospital to be accredited by JCI.

Currently, the 7th edition is available in English, Chinese, Italian, Japanese, Portuguese, and Indonesian. This manual is available in both hard copy and electronic formats.

JCI Education Offers Virtual Learning Opportunities in 2021

Prepare for JCI Accreditation

For organizations considering or preparing for accreditation, JCI Education offers its Accreditation Preparation Online (APO) program. This 12-course curriculum is filled with engaging, media-rich resources to help you build your team's skills and competencies, identify compliance gaps, implement improvements, and prepare for survey.

The course is presented with reader-friendly content in short, easy-to-understand sections. The individually-paced learning modules appear in multiple learning formats. Learners will discover ample course reviews and self-assessments. Developed by JCI accreditation experts, this indispensable on-demand set of courses includes proven content to help your organization improve quality and patient safety as you move toward your survey.

Prepare for Survey Under the 7th Edition Standards

The new 7th Edition Standards for Hospitals and Academic Medical Centers will take effect 1 January 2021. Organizations preparing for reaccreditation have come to rely on JCI's face-to-face Accreditation Update education program to gain key information about what standards have changed and how those changes will impact a survey.

With the outbreak of COVID-19, JCI Education innovated by releasing a virtual 3-part Accreditation Update, presented entirely online for **FREE**. This training integrates JCI expert faculty insights, detailed information on the standards that changed from the 6th edition, and the impact of these changes on an upcoming accreditation survey. The self-paced training series focuses on applying the standards.

This curriculum is designed for Hospitals and Academic Medical Centers already accredited by JCI and those that are looking to become accredited by JCI. If you haven't registered for the 7th edition training, you still have time to take advantage of this free online content.
