

# Top 10 OSHA Citations in Health Care

*OSHA releases information for October 1, 2010–September 30, 2011*

The Occupational Safety and Health Administration (OSHA) inspects health care as well as other industries. The information at right is based on the percentage of federal OSHA inspections within the health care industry (Standard Industrial Classification Code 80—Health Services) that resulted in specific standard citations between October 1, 2010, and September 30, 2011. Additional information is available on OSHA's website at [https://www.osha.gov/pls/imis/citedstandard.sic?p\\_esize=&p\\_state=FEFederal&p\\_sic=80](https://www.osha.gov/pls/imis/citedstandard.sic?p_esize=&p_state=FEFederal&p_sic=80). 

Rank	OSHA Standard
1.	1910.1030—Bloodborne Pathogens
2.	1910.1200—Hazard Communication
3.	1904.29—Forms
4.	1910.303—General Requirements (Electrical)
5.	1910.305—Wiring Methods, Components, and Equipment
6.	1904.32—Annual Summary
7.	1910.151—Medical Services and First Aid
8.	1910.37—Maintenance, Safeguards, and Operating Features for Exit Routes
9.	1910.132—General Requirements (PPE)
10.	1904.7—General Recording Criteria
