

Virtual Review Framework: Our new approach to reviews

In addition to updating our on-site review protocols, we've implemented a virtual review process for organizations where in-person reviews are not a viable option.

The meaningful certification experience you expect, delivered differently. Here's how...

- Reviewers seamlessly facilitate the virtual event while providing the highest level of knowledge and expertise
- The virtual process is tailored to address the unique differences between an on-site review and one that's performed on Zoom

- Screen sharing allows participants to clearly identify and understand opportunities for improvement
- The virtual review model allows greater organization participation than would be possible under current social distancing protocols
