Optional Self-Assessment for Primary Care Medical Home (PCMH) Certification for Ambulatory Health Care Centers

The following tool is a useful document that may be helpful to your ambulatory care practice as you pursue PCMH certification for your facilities. The tool assesses Elements of Performance (EPs) which are the actions, processes and structures that must be implemented to achieve the standard. These EPs are in addition to those required for your ambulatory care accreditation.

Survey Activity line below each explanation indicates which activity within the survey should be addressed.

If you would like to use this tool, you may find it most beneficial to consider all sites you are considering for PCMH certification.

✔️ Check “yes” when your organization believes it is in compliance
✔️ Check “no” when your organization is not in compliance

Based on your answers, your organization may be able to highlight areas where continued work needs to be completed in order to be in compliance with the standards.

I. OPERATIONAL CHARACTERISTIC: PATIENT-CENTEREDNESS

Providing Information to Patients: PCMH and Primary Care Clinician

1. The organization/site provides information to the patient about:
   (indicate Yes or No to each item)

   Yes No
   ☐ ☐ The mission, vision, and goals of the primary care medical home. [RI.01.04.03/EP 1]

   Tip: Review flyers, brochures, posters, website, and other materials provided to patients. Look to see how they communicate a focus on patient-centered and team-based comprehensive and coordinated care, a systems-based approach to quality and safety, and enhanced patient access.

   ☐ ☐ How the primary care medical home functions, its scope of care, and its types of services. [RI.01.04.03/EP 2]

   ☐ ☐ How the primary care medical home manages patient care, including the following: [RI.01.04.03/EP 3]
Selection of a primary care clinician
Involvement in his or her own treatment plan
Management of referrals
  Coordination of care
  Collaboration with patient-selected clinicians who provide specialty care or second opinions
  Communication with the primary care medical home about health care concerns/other information

☐ ☐ Patient responsibilities, including providing health history and current medications and participating in self-management activities. [RI.01.04.03/EP 5]

☐ ☐ The patient’s right to obtain care from other clinicians within the primary care medical home, to seek a second opinion, and to seek specialty care. [RI.01.04.03/EP 6]

☐ ☐ The credentials and educational background information of individuals serving in the role of primary care clinician. [RI.01.04.03/EP 7]

5. The patient’s clinical record contains the following: [RC.02.01.01 EP 25]

   Yes No
   ☐ ☐ Race and ethnicity
   ☐ ☐ Family history
   ☐ ☐ Work history (including any occupational risk factors or exposures)

   Site Name(s) and Comments:

   ____________________________________________________________

   Survey Activity: Patient Tracer, Opening Conference/Org orientation

   **Health Literacy & Self-Management goals**

1. The interdisciplinary team identifies the patient's health literacy needs. [PC.02.03.01/EP 30]

   Health literacy is typically an interactive process, the goal of which is to ascertain the patients' capacity to obtain, process, and understand basic health information needed to make appropriate health decisions.

   YES at all sites ________   YES at some sites: ________ (list sites)   NO ______
2. Patient education is consistent with the patient’s health literacy needs. [PC.02.03.01/EP 31]

YES at all sites ________  YES at some sites: ________ (list sites)  NO ______

Site Name(s) and Comments:

3. Patient self-management goals are developed in partnership with patients, based on criteria established by the organization, and incorporated into the patient’s treatment plan. [PC.01.03.01/EP 44]

Examples of criteria include the patient’s disease process or condition and specific patient populations, such as those with multiple comorbidities or a chronic disease. It is not expected that self-management goals be developed for every patient.

YES at all sites ________ YES at some sites: ________ (list sites)  NO ______

Site Name(s) and Comments:

4. The primary care clinician and the interdisciplinary team educate the patient on self-management tools and techniques based on the patient’s individual needs. [PC.02.03.01/EP 28]

YES at all sites ________ YES at some sites: ________ (list sites)  NO ______

II. OPERATIONAL CHARACTERISTIC: COMPREHENSIVENESS

Expanded Scope of Responsibility

1. The organization manages transitions in care and provides or facilitates patient access to: [PC.02.04.03/EP 1]

Some of these services may be obtained through the use of community resources as available, or in collaboration with other organizations.

Yes  No  Yes  No
☐ ☐  Acute care  ☐ ☐  Substance abuse treatment
☐ ☐  Oral health care  ☐ ☐  Behavioral health needs
☐ ☐  Management of chronic care  ☐ ☐  Optical/eye health care
☐ ☐  Urgent and emergent care
☐ ☐  Preventive services that are age and gender-specific
☐ ☐  Rehabilitative services & equipment

YES at all sites_______  YES at some sites:_______ (list sites)  NO ____

[Explain any items above that are marked No]

Site Name(s) and Comments:
____________________________________________________________________

Survey Activity: Patient Tracer, Opening Conference/Org orientation; Governing Board and Clinical/staff Leadership Sessions (for BPHC-supported Health centers only)
2. The organization provides care that **addresses various phases of a patient’s lifespan**, including end-of-life care. \[PC.02.04.03/EP 2\]

   YES at **all** sites________  YES at **some** sites:________(list sites)  NO ______

   Site Name(s) and Comments:

   Survey Activity: Patient Tracer, Opening Conference/Org orientation, Governing Board and Clinical/staff Leadership Sessions (for BPHC-supported Health centers only)

3. The organization **provides disease and chronic care management** services. \[PC.02.04.03/EP3\]

   YES at **all** sites________  YES at **some** sites:________(list sites)  NO ______

   Site Name(s) and Comments:

   Survey Activity: Patient Tracer, Opening Conference/Org orientation

4. The organization **provides population-based care** \[PC.02.04.03/EP 4\]

   Population-based care is the assessment, monitoring, and management of the health care needs and outcomes of identified groups of patients and communities, rather than individual patients. The goal is to improve the health of the population, increase awareness of behavior-related health risks, promote healthy lifestyles & patient self-management, and decrease health care inequities.

   YES at **all** sites________  YES at **some** sites:________(list sites)  NO ______

   Site Name(s) and Comments:

   Survey Activity: Patient Tracer, Opening Conference/Org orientation

---

**Interdisciplinary Team Membership & Responsibilities**

1. The organization **identifies the composition of the interdisciplinary team**. The team must include a Doctor of Medicine or osteopathy. \[PC.02.04.05/EP 1\]

   The intent of this requirement is that while a Doctor of Medicine or osteopathy is always available to be part of the interdisciplinary team, involvement in a patient’s care would be determined by the needs of the patient.

   YES at **all** sites________  YES at **some** sites:________(list sites)  NO ______
2. The members of the interdisciplinary team provide comprehensive and coordinated care and maintain the continuity of care. [PC.02.04.05/EP2]

The provision of care may include making internal and external referrals.

YES at all sites_______ YES at some sites:_______ (list sites) NO _____

Site Name(s) and Comments:

3. The primary care clinician and team members provide care for a panel of patients. [PC.02.04.05/EP 4]

YES at all sites_______ YES at some sites:_______ (list sites) NO _____

Site Name(s) and Comments:

4. The interdisciplinary team participates in the development of the patient’s treatment plan. [PC.02.04.05/EP 8]

YES at all sites_______ YES at some sites:_______ (list sites) NO _____

Site Name(s) and Comments:

5. The interdisciplinary team assesses patients for health risk behaviors. [PC.02.04.05/EP 12]

YES at all sites_______ YES at some sites:_______ (list sites) NO _____

Site Name(s) and Comments:
6. The interdisciplinary team monitors the patient’s progress towards achieving treatment goals. [PC.02.04.05/EP 10]

   YES at all sites_______     YES at some sites:_______(list sites)     NO _____

Site Name(s) and Comments:

---

III. OPERATIONAL CHARACTERISTIC: COORDINATED CARE

Care Coordination

1. The primary care clinician is responsible for making certain that the interdisciplinary team provides comprehensive and coordinated care and maintains the continuity of care. [PC.02.04.05/EP 5]

   Coordination of care may include making internal and external referrals, developing and evaluating treatment plans, and resolving conflicts in the provision of care.

   YES at all sites_______     YES at some sites:_______(list sites)     NO _____

Site Name(s) and Comments:

---

2. When a patient is referred internally or externally for care, treatment, or services, the interdisciplinary team reviews and tracks the care provided to the patient, and as needed, acts on recommendations for additional care, treatment, or services. [PC.02.04.05/ EP 6]

   Internal referrals include orders for laboratory tests and imaging.

   YES at all sites_______     YES at some sites:_______(list sites)     NO _____

Site Name(s) and Comments:
3. The interdisciplinary team acts on recommendations from internal and external referrals for additional care, treatment, or services. [PC.02.04.05/EP 7]

**Tip:** Review a sample of clinical records to see whether there was follow-up on recommendations from specialists and other care providers

YES at all sites________    YES at some sites:_______(list sites)    NO ______

Site Name(s) and Comments:

---

Survey Activity: Patient Tracer, Opening Conference/Org orientation, Continuity of Care system tracer, Clinical/staff Leadership Sessions (for BPHC-supported Health centers only)

4. The clinical record contains information that promotes continuity of care among providers. [RC.01.01.01/EP 5]

This requirement refers to care provided by both internal and external providers.

YES at all sites________    YES at some sites:_______(list sites)    NO ______

Site Name(s) and Comments:

---

Survey Activity: Patient Tracer, Opening Conference/Org orientation

IV. OPERATIONAL CHARACTERISTIC: SUPERB ACCESS

1. The organization provides patients with the ability to do the following 24 hours/day, 7 days/week: [PC.02.04.01/EP1]

Access may be provided through different methods, such as via telephone, flexible hours, websites & portals.

**Yes No**

☐ ☐ Contact the primary care medical home to obtain same or next day appointment  
☐ ☐ Request prescription renewal  
☐ ☐ Obtain clinical advice for urgent health needs

YES at all sites________    YES at some sites:_______(list sites)    NO ______

[Explain any items above that are marked No]
Site Name(s) and Comments:

---

*Survey Activity: Patient Tracer, Opening Conference/Org orientation, Governing Board and Clinical/staff Leadership Sessions (for BPHC-supported Health centers only)*

2. The organization **offers flexible scheduling** to accommodate patient care needs. [PC.02.04.01/EP 2]

   *This may include open scheduling, same day appointments, expanded hours, and arrangements with other organizations.*

   YES at **all** sites________   YES at **some** sites:  ________ (list sites)   NO ______

Site Name(s) and Comments:

---

3. The organization has a **process to respond to patient urgent care needs 24 hours a day, 7 days a week.** [PC.02.04.01/EP 3]

   YES at **all** sites________   YES at **some** sites:  ________ (list sites)   NO ______

Site Name(s) and Comments:

---

4. Patients are provided **online access to their health information** within four business days after the information is available to the primary care clinician or interdisciplinary team. This information includes diagnostic test results, lab results, summary lists, and medication lists. [PC.02.04.01/EP 4]

   YES at **all** sites________   YES at **some** sites:  ________ (list sites)   NO ______

Site Name(s) and Comments:

---

5. The organization uses a **certified electronic health record to provide appointment reminders** to patients with two or more office visits in the last two years. [PC.02.04.01/EP 5]
A certified electronic health record has the capability to support the documentation, sharing, and secure storage of patient data in a structured format, where information can be easily retrieved and transferred between settings of care and those participating in patient care. It meets criteria and complies with standards established by the Centers for Medicare & Medicaid Services & Office of the National Coordinator for Health Info Technology.

YES at all sites ________  YES at some sites: ________(list sites)  NO ______

Site Name(s) and Comments:

Survey Activity: Patient Tracer, Opening Conference/Org Orientation, Clinical/Leadership Sessions (for BPHC-supported Health centers only)

V. OPERATIONAL CHARACTERISTIC: SYSTEMS FOR QUALITY/SAFETY

<table>
<thead>
<tr>
<th>Health information technology related</th>
</tr>
</thead>
</table>

1. The organization **uses a certified electronic health record system** to do the following: [PC.02.04.03/EP5]

   Yes  No
   ☐ ☐ Support the continuity of care, and provision of comprehensive and coordinated care
   ☐ ☐ Document and track care, treatment, or services
   ☐ ☐ Support disease management, including providing patient education
   ☐ ☐ Support preventive care treatment, or services
   ☐ ☐ Create reports for internal use
   ☐ ☐ Create & submit reports to external providers/orgs, public health agencies, disease-specific, immunization, other specialized registries
   ☐ ☐ Facilitate electronic exchange of information among providers
   ☐ ☐ Support performance improvement
   ☐ ☐ Identify & provide patient-specific education resources

   YES at all sites ________  YES at some sites: ________(list sites)  NO ______
   [Explain any items above that are marked No]

   Site Name(s) and Comments:

   Survey Activity: Patient Tracer, Opening Conference/Org orientation, Continuity of Care system tracer

2. The organization **has an electronic prescribing** process [MM.04.01.01/EP 21]

   YES at all sites ________  YES at some sites: ________(list sites)  NO ______

   Site Name(s) and Comments:
3. The organization uses **clinical decision support tools** to guide decision making.  
* [PC.01.03.01/EP 45]

Clinical decision support is software designed to assist in clinical decision making. A clinical decision support system matches two or more characteristics of an individual patient to a computerized clinical knowledge base and provides patient-specific assessments or recommendations to the clinician. The clinician makes decisions based on clinical expertise, knowledge of the patient, and the information provided through the clinical decision support system. A clinical decision support system can be used at different points in the care process such as diagnosis, treatment, and post-treatment care, including the prediction of future events.

  
  YES at **all** sites  
  YES at **some** sites: ________ (list sites)  
  NO ______

Site Name(s) and Comments:

---

**Performance improvement-related**

1. The organization **collects data on: disease management outcomes.** * [PI.01.01.01/EP 28]

  YES for **all** sites ________  
  YES for **some** sites: ________ (list sites)  
  NO ______

Site Name(s) and Comments:

---

2. The organization **collects data on: patient access to care** within timeframes established by the organization. * [PI.01.01.01/EP 29]

  YES at **all** sites ________  
  YES at **some** sites: ________ (list sites)  
  NO ______

Site Name(s) and Comments:
3. The organization collects data on the following: [PI.01.01.01/EP 30]

   Yes No
   □ □ Patient experience and satisfaction related to access to care and communication
   □ □ Patient perception of the comprehensiveness of care
   □ □ Patient perception of the coordination of care
   □ □ Patient perception of the continuity of care

   YES at all sites_________ YES at some sites:_______(list sites) NO_____ Site Name(s) and Comments:

   Survey Activity: Patient Tracer, Opening Conference/Org orientation, Data Management System Tracer

4. The organization uses the data it collects on the patient’s experience and satisfaction related to access to care and communication, and the patient’s perception of the comprehensiveness, coordination, and continuity of care [PI.03.01.01/EP 11]

   YES_____ (describe an example below) NO _____

   Site Name(s) and Comments:

   Survey Activity: Patient Tracer, Opening Conference/Org orientation, Data Management System Tracer, Governing Board Session (for BPHC-supported Health centers only)

5. Leaders use qualitative data collection methods to involve patients in performance improvement activities. [LD.03.07.01/EP 21]

   Qualitative data collection methods are used to provide insight into patients’ opinions, along with underlying reasons, and motivations. Examples of qualitative methods include focus groups, telephonic or in-person patient interviews or patient rounding, and patient participation on performance improvement committees.

   YES__________(describe how below) NO _____

   Site Name(s) and Comments:
6. The interdisciplinary **team actively participates in performance improvement** activities. [LD.03.07.01/EP 4]

   YES _______ (describe how below)       NO ______

Site Name(s) and Comments:

---

7. The organization **evaluates how effectively** the primary care clinician and the interdisciplinary team work in partnership with the patient to support the continuity of care and the provision of comprehensive and coordinated care, treatment, or services. [LD.04.01.05/EP 11]

   YES _______ (describe how below)       NO ______

Site Name(s) and Comments:

---

**Qualifications of Primary Care Clinician & Interdisciplinary Team**

1. **Primary care clinicians have the educational background** and broad-based knowledge and experience necessary to handle most medical and other health care needs of the patients who selected them. This includes resolving conflicting recommendations for care. [HR.03.01.01/EP 1]

   A primary care clinician is a Doctor of Medicine or osteopathy, or an advanced practice nurse or physician assistant practicing in collaboration with a Doctor of Medicine or osteopathy. The term "collaboration" in this context means that health care providers work together to meet the needs of the patient. It is not the intent of this requirement to impose additional restrictions on the scope of practice of an advanced practice nurse, nor is it meant to preempt applicable state law.

   YES at all sites_________       YES at some sites:_______(list sites)       NO ______

Site Name(s) and Comments:

---
2. The primary care clinician and the interdisciplinary team members function within their **scope** of practice and in accordance with privileges granted. [HR.01.02.07/EP 3]

| YES at **all** sites | YES at **some** sites: (list sites) | NO |
