

Your Guide to Choosing an Accreditor for Your Nursing Home

HOW DOES THE JOINT COMMISSION STAND OUT FROM THE CROWD?

Referrals and Recognitions

Helping you grow your business with referrals and recognitions from states, insurers and payors that trust Joint Commission accreditation as a quality metric for payment approval, network participation and contract or licensure eligibility.

Most Recognized Standards

Developed with input from your industry peers and nationally recognized experts, our standards are considered the industry benchmark for quality and safety.

High Touch

For every phase of your accreditation journey, from getting started to maintaining your achievement, we have responsive staff ready to assist.

Organization-Wide Approach

By looking at the entire nursing home, we can help you minimize risk areas and instill a data-driven culture of excellence in everything you do.

Portfolio of Programs to Meet Your Distinct Quality Needs

We provide the industry's most comprehensive foundation for the delivery of consistent, quality care with focus on Corporate programs to address the unique needs of multi-facility corporation leaders, specialty certifications such as memory care, post-acute care and disease-specific care certifications.

Tracer-Guided Survey Experience

Our unique patient tracer method uses observation and interviews to "trace" an individual's interaction with your organization, reducing paper submissions while getting a real-time analysis of your organization's strengths and challenges.

Employed Surveyor Team

The Joint Commission's surveyor cadre is experienced. Each surveyor sees an average of 30 nursing homes per year, allowing them to bring more field-tested leading practices to you.
