

The **SAFER DASHBOARD** will be available in phases. Organizations in the Phase 1 rollout will be notified in advance.

SAFER™ DASHBOARD

A new business analytics tool to empower timely, data-driven decisions that drive the delivery of safe, high quality care.

STRENGTHEN DECISION-MAKING, IMPACT SAFE CARE DELIVERY

- Reveals macro trends and patterns in current and historical data, helping leaders more clearly see the larger landscape
- Drives greater understanding and application of survey finding data

BOOST EFFICIENCY, SAVE VALUABLE STAFF TIME

- Eliminates the need for manual entry of accreditation data into an electronic format for analysis/tracking
- Enables faster reporting of survey data

WHAT'S INCLUDED IN THE SAFER DASHBOARD?

- Aggregate survey findings at the corporate, organization and program levels*, the same data found in the final accreditation report.
- Survey observations
- SAFER Matrix data
- Survey statistics including number of surveys, total Requirements for Improvement (RFIs) and average number of RFIs
- Data timeframe based on inception of SAFER Matrix model (6/2016)
- Ability to filter data and view graphically

*as applicable.

WHO CAN ACCESS?

Access will be granted to the following in Phase 1:

- Corporate & secondary corporate contacts
- Primary accreditation & laboratory contacts (if applicable)
- Chief Executive Officers

Additional contacts must be granted access by the primary accreditation contact or security administrators within an organization.

WHERE CAN I FIND IT?

SAFER Dashboard is housed on your organization's Joint Commission Connect® Extranet site, under the "Resources and Tools" tab. It can also be located on the Corporate Portal.
