

# Standardize Performance Measures for Acute Heart Attack Ready Certification

Joint Commission Quality Measures for Disease-Specific Care Certification

Measure ID	Measure Name	Measure Description
AHAR-1	ECG within 10 minutes of Arrival	Percentage of ST-elevation Myocardial Infarction (STEMI) patients who received an ECG within 10 minutes of arrival
AHAR-2	Arrival to Thrombolytics within 30 minutes	Percent of all ST-elevation Myocardial Infarction (STEMI) patients who receive thrombolytic therapy within 30 minutes of arrival
AHAR-3	Arrival to Transfer to PCI Center within 45 minutes (Door In Door Out: Referring Hospital)	Percentage of ST-elevation Myocardial Infarction (STEMI) patients who are transferred out for primary PCI within 45 minutes of arrival
AHAR-4	EMS FMC to PCI $\leq$ 90 minutes	Percentage of STEMI patients who receive primary PCI within 90 minutes from EMS First Medical Contact

<sup>1</sup> When applicable for those patients admitted to inpatient care

<sup>2</sup> Applicable when the AHAR provides any PCI coverage for primary PCI
