2023 ORYX® Performance Measure Reporting Requirements: Hospital Accreditation Program (HAP) and Critical Access Hospital Accreditation (CAH) Program

ORYX OVERVIEW: HAP & CAH

Additional Information

General:

- **NEW:** Chart-abstracted and eCQM data submission timelines were delayed in 2022 while a new Joint Commission Direct Data Submission Platform (DDSP) was built to collect both chart-abstracted and eCQM data. The current timeline is available on our [website](#) under “Supporting Materials”.
- **NEW:** The Joint Commission has retired /removed chart-abstracted HBIPS-1.
- The Joint Commission has not adopted the following CMS measures for 2023: SEP-1, Hospital Commitment to Health Equity, Screening for Social Drivers of Health, Screen Positive Rate for Social Drivers of Health.

Extenuating Circumstances:

- ³ If an HCO is required but unable to submit eCQMs, the HCO must submit an Extenuating Circumstance Request (ECR) form from The Joint Commission prior to the 1Q2023 chart-abstracted deadline; those HCOs granted an ECR for submission of eCQMS are required to submit three (3) chart-abstracted measures for all four (4) quarters of CY2023.
- HCOs requesting extenuating circumstance for chart-abstracted measures must submit an ECR form prior to the deadline of the respective quarter’s data submission deadline.
- Eligible hospitals and Critical Access Hospitals (CAHs) must submit a new ECR form for any subsequent years and in no case may an eligible hospital or CAH be granted an exception for more than five consecutive years.
- Organizations request ECR forms via email to: HCOORYX@jointcommission.org

Chart-Abstracted:

- ² Hospitals that do not provide Obstetrical Services are not required to submit alternate chart-abstracted measures but may do so if they wish.
- The Joint Commission has retained ED-1, IMM-2, and VTE-6 measures as “optional” (CMS retired these measures effective 1/1/2019).
- ¹ For any or all of the required chart-abstracted Perinatal Care Measures (PC-01, PC-02, PC-05 and PC-06), HCOs may submit the eCQM data (ePC-01, ePC-02, ePC-05 and ePC-06) instead of the corresponding chart-abstracted measures.
- If an organization submits optional measures 1Q2023, they are required to submit those measures for the remainder of the calendar year.

eCQMs:

- **NEW:** For HCOs required or electing to submit eCQMs: HCOs are required to submit eCQM data for **all four (4) quarters**, applicable to the services provided and patient populations served.
- HCOs are to submit the same self-selected eCQMs for all four (4) quarters.
- For ePC-07 Severe Obstetric Complications there is no corresponding chart abstracted PC-07 measure. This measure is not required for 2023 collection but is offered as an optional measure to meet ORYX eCQM requirements.
- ¹ For any or all of the required chart-abstracted Perinatal Care Measures (PC-01, PC-02, PC-05 and PC-06), HCOs may submit the eCQM data (ePC-01, ePC-02, ePC-05 and ePC-06) instead of the corresponding chart-abstracted measures.
- The Joint Commission continues to evaluate the data received and will begin public reporting when there are enough HCOs participating and enough data to be reliable.
- Hospitals may report additional eCQMs at their discretion (beyond the minimum requirements) applicable to patient population/services offered.
