# 2021 ORYX® Performance Measure Reporting Requirements: Hospital Accreditation Program (HAP) and Critical Access Hospital Accreditation (CAH) Program

## ORYX OVERVIEW: HAP & CAH

### Additional Information

#### General:

- **NEW:** The Joint Commission and CMS added the Safe Use of Opioids – concurrent prescribing eCQM.
- Neither the Joint Commission nor CMS has retired or removed any chart-abstracted or eCQM measures for CY2021.
- HCOs that go above and beyond the minimum ORYX eCQM requirements and meet eligibility will be recognized as part of the Pioneers in Quality™ program.

#### Chart-Abstracted:

- **NEW:** Eliminating “self-reporting” of ORYX data. Hospitals that self-reported performance measurement data in the past are now expected to submit their data, starting CY2021, to the Direct Data Submission Platform (DDSP).
- **NEW:** Eliminating ORYX Designated specialty hospital. Starting with CY2021, all hospitals previously designated will be placed in the appropriate ORYX policy based upon licensed beds and/or outpatient visits.
- **NEW:** CY2021 Chart-abstracted data are due quarterly (6/30/2021, 9/30/2021, 12/31/2021 and 03/31/2022); reporting monthly, aggregate data points for each quarter. Chart-abstracted data is due 3 months after the end of the quarter.
- All hospitals with reporting requirements must submit their data via the Direct Data Submission Platform (DDSP).
- Hospitals that did not use the DDSP to submit data in CY2020 need to request to be onboarded via email to [HCOORYX@jointcommission.org](mailto:HCOORYX@jointcommission.org)
- Hospitals that do not provide Obstetrical Services are not required to submit alternate chart-abstracted measures but may do so if they wish.
- Hospitals manage their chart-abstracted measure selections within the Joint Commission’s Direct Data Submission (DDS) Platform.
- As with prior years, the Joint Commission has not adopted the CMS “sepsis management bundle” (SEP-1).
- The Joint Commission retained ED-1, IMM-2, and VTE-6 measures as “optional” (CMS retired these measures effective 1/1/2019).

#### eCQMs:

- **NEW:** For eCQMs, HCOs are required to submit data (minimum of 4 eCQMs) for two self-selected quarters, applicable to the services provided and patient populations served. The quarters do not need to be consecutive.
- **NEW:** HCOs are to submit the same eCQMs for both self-selected quarters.
- **NEW:** The Joint Commission and CMS added the eCQM Safe Use of Opioids - Concurrent Prescribing.
- **NEW:** ePC-06 added as a new Joint Commission only eCQM (specifications available by January 2021).
- **NEW:** For any or all of the required chart-abstracted Perinatal Care Measures (PC-01, PC-02, PC-05 and PC-06), HCOs may submit a minimum of two quarters of eCQM data (ePC-01, ePC-02, ePC-05 and ePC-06) instead of four quarters of the corresponding chart-abstracted measures.
- The Joint Commission continues to evaluate the data received and will begin public reporting when there are enough HCOs participating and enough data to be reliable.
- Hospitals may report additional eCQMs at their discretion (beyond the minimum requirements) applicable to patient population/services offered.
- eCQMs are due annually. The annual submission deadline for CY2021 eCQM data is 3/15/2022 using the Direct Data Submission Platform.
