

# Pioneers In Quality Video Shorts

## Series Description

The Joint Commission, Centers for Medicare & Medicaid Services (CMS), and Mathematica Policy Research are excited to premiere a new series of educational video shorts about electronic Clinical Quality Measures (eCQMs). Episodes are approximately 2-3 minutes in length and offer an engaging, succinct, and contemporary approach to teach these complex and comprehensive topics. The eCQM video shorts lead the viewer to understand:

- Application of eCQM resources
- eCQM constructs and
- Logic expression language concepts (CQL, FHIR)

Considering the pressing burdens on the hospital environment, the On-Demand format allows for:

- Flexibility and convenience
- Easily sharable content as a quick refresher or for new team members

---

## Pioneers In Quality Video Shorts - eCQM Basics Series 1

Video Short Title	Recording link	Transcript

## Future Content

You can find future video shorts on The Joint Commission and CMS websites via these links and we will also launch them via the Joint Commission's Pioneers in Quality and CMS' promotional emails:

<https://www.jointcommission.org/measurement/quality-measurement-webinars-and-videos/>

<https://ecqi.healthit.gov/>

---

Viewers will be emailed a link to take a short (2 min) survey. The Joint Commission uses all feedback provided from participants to determine future educational product needs. This feedback assists in addressing knowledge gaps and assessing the effectiveness of our educational content.

Questions about content within the video shorts can be submitted to [pioneersinquality@jointcommission.org](mailto:pioneersinquality@jointcommission.org)
