

June 1, 2020

Good morning –

Due to the COVID-19 pandemic and the current impact that it is having on accredited hospitals, we have determined that we will be extending the Pioneers in Quality Proven Practices submission deadline to a later date in 2020. We will continue to watch as the healthcare system begins to recover and then re-launch the application process, hopefully later this summer. If you have submitted or intend to submit your organization's Proven Practice, the [online submission link and application](#) will remain open.

We thank you for your interest in Pioneers in Quality and the Proven Practices program.
