

2020 Behavioral Health Care National Patient Safety Goals

The purpose of the National Patient Safety Goals is to improve patient safety. The goals focus on problems in health care safety and how to solve them.

Identify individuals served correctly

NPSG.01.01.01

Use at least two ways to identify individuals served. For example, use the individual's name *and* date of birth. This is done to make sure that each individual served gets the correct medicine and treatment.

Use medicines safely

NPSG.03.06.01

Record and pass along correct information about an individual's medicines. Find out what medicines the individual served is taking. Compare those medicines to new medicines given to the individual served. Give the individual served written information about the medicines they need to take. Tell the individual served it is important to bring their up-to-date list of medicines every time they visit a doctor.

Prevent infection

NPSG.07.01.01

Use the hand cleaning guidelines from the Centers for Disease Control and Prevention or the World Health Organization. Set goals for improving hand cleaning. Use the goals to improve hand cleaning.

Identify individuals served safety risks

NPSG.15.01.01

Reduce the risk for suicide.
