## COMPREHENSIVE STROKE CENTER CERTIFICATION

# IT'S A BIG DEAL FOR HOSPITALS. AN EVEN BIGGER ONE FOR THEIR PATIENTS.

Comprehensive Stroke Center certification means a hospital is ready 24/7 to deliver advanced stroke care. It's the highest level of stroke certification, earned by meeting standards for the most complex stroke cases. If your hospital is part of this elite group, congratulations. If not, let us help you get started.
