

Corporate Advantage for Ambulatory Care

PROGRAM FOR MULTI-FACILITY ORGANIZATIONS

Addresses the unique management and oversight needs of multi-facility corporation leaders.

Benefits:

- Identifies processes/systems across your sites that impact quality and safety
- Provides unmatched insight into strengths and weakness of your operational processes in any location
- Is an objective foundation for data-driven action plans to achieve corporate quality and safety benchmarks
- Strengthens risk management efforts
- Facilitates better performance on state surveys (if applicable)

Key Features:

- Customized GAP Analysis to focus preparation, provided at 50% discount off our standard fees (eligibility criteria required)
- Dedicated team to streamline communication: Account Executive, Standards Interpretation Group (SIG) representative, and Survey Management
- Annual account review and planning session
- Annual update webinar on product enhancements
- Participation at your annual meeting to update sites on The Joint Commission
- Optional Corporate Summation at close of multiple site surveys (fees may apply)

Achieve and maintain performance excellence through Joint Commission Accreditation.

NEW! Acquisition Due Diligence Analysis, including SAFER™ Matrix analysis of prioritized risk areas (fees may apply)
