SAFER™ DASHBOARD

A new business analytics tool to empower timely, data-driven decisions that drive the delivery of safe, high quality care.

STRENGTHEN DECISION-MAKING, IMPACT SAFE CARE DELIVERY

- Reveals macro trends and patterns in current and historical data, helping leaders more clearly see the larger landscape
- Drives greater understanding and application of survey finding data

BOOST EFFICIENCY, SAVE VALUABLE STAFF TIME

- Eliminates the need for manual entry of accreditation data into an electronic format for analysis/tracking
- Enables faster reporting of survey data

WHAT’S INCLUDED IN THE SAFER DASHBOARD?

- Aggregate survey findings at the corporate, organization and program levels*, the same data found in the final accreditation report.
- Survey observations
- SAFER Matrix data
- Survey statistics including number of surveys, total Requirements for Improvement (RFIs) and average number of RFIs
- Data timeframe based on inception of SAFER Matrix model (6/2016)
- Ability to filter data and view graphically

*as applicable.

WHO CAN ACCESS?

Access will be granted to the following in Phase 1:

- Corporate & secondary corporate contacts
- Primary accreditation & laboratory contacts (if applicable)
- Chief Executive Officers

Additional contacts must be granted access by the primary accreditation contact or security administrators within an organization.

WHERE CAN I FIND IT?

SAFER Dashboard is housed on your organization’s Joint Commission Connect® Extranet site, under the “Resources and Tools” tab. It can also be located on the Corporate Portal.

DASH (Data Analytics for Safe Healthcare) is a data transparency initiative launched by The Joint Commission. DASH demonstrates our commitment to empowering our clients and the decisions they make as they seek to improve the delivery of safe, quality healthcare. The SAFER Dashboard is part of the DASH family of business intelligence tools powering our client’s performance improvement efforts.
