## Performance Improvement (PI) Chapter

### PI.01.01.01

#### Current Requirement Text:
The organization collects data to monitor its performance.

#### PI.01.01.01

#### Current EP Text:
The leaders set priorities for and identify the frequency of data collection. (See also LD.03.07.01, EP 2)

#### LD.03.07.01

#### New EP Text:
As part of performance improvement, leaders do the following:
- Set priorities for performance improvement activities and care, treatment, and services outcomes for individuals served
- Give priority to high-volume, high-risk, or problem-prone processes for performance improvement activities
- Identify the frequency of data collection for performance improvement activities
- Reprioritize performance improvement activities in response to changes in the internal or external environment

Note 1: For child welfare agencies, patient health outcomes for children and youth might include placement in permanent family homes, long-term functional outcomes, contact with family members, parent satisfaction, child and youth satisfaction, and foster parent satisfaction.

Note 2: For child welfare agencies, examples of high-volume, high-risk, or problem-prone processes include multiple placements (placement instability), elopement/runaway, and aggressive/violent behaviors.

For organizations that elect The Joint Commission Behavioral Health Home option:
The organization uses the data it collects on the individual’s perception of the safety and quality of care, treatment, or services to improve its performance. This data includes the following:
- The individual’s experience and satisfaction related to access to care, treatment, or services and communication
- The individual’s perception of the comprehensiveness of care, treatment, or services
- The individual’s perception of the coordination of care, treatment, or services
- The individual’s perception of the continuity of care, treatment, or services
